EXPERIENCE

Mercado Libre

Feb 2024 – Present · Hybrid

UX Designer

Social video, live shopping and product reviews for buyers and sellers

- Co-designed **Lives** from scratch, Mercado Libre's live shopping experience, from concept to its launch in Brazil.
- Co-led the design of a **native camera** for recording product reviews inside the app, now live in Brazil.
- Designed an **accessible video feed** for people who use screen readers (VoiceOver and TalkBack), which became a scalable model.
- Redesigned the **video upload flows** and the listings view so sellers can showcase their products in video more easily.
- Led a **heuristic evaluation** of Clips; its findings made it into the roadmap and prioritized three new initiatives.
- Co-led the reorganization of the Figma libraries into a **component system** that made handoffs with engineering clearer.
- Integrated **Claude and Codex** into my process to build functional prototypes that Product and Engineering validate before building.

Endava

Jul 2021 – Feb 2024

UX/UI & Visual Designer (Communications Specialist)

Global software consultancy

- Designed the experience and interfaces of a product for a **US financial inclusion** organization: user interviews, accessibility testing and design QA with developers.
- Designed the **information architecture** and navigation of Endava LATAM's SharePoint so teams could find resources faster.
- Designed **visual pieces, videos and animations** for internal and external communications, with a consistent visual line.

PROFILE

UX/Product Designer with more than 5 years of experience designing digital products for e-commerce, digital retail, social video and financial inclusion, in product (Mercado Libre) and in consulting (Endava, with a US client). End-to-end design, from research to handoff, alongside Product and Engineering.

I combine design judgment with AI: AI-assisted benchmarking and functional prototypes with Claude and Codex to go quickly from idea to validated prototype. Specialized in accessibility and scalable design systems.

SKILLS

Product design

Heuristic evaluation · usability testing · user interviews · information architecture · interaction design · accessibility (VoiceOver, TalkBack) · design systems (Atomic Design, components) · motion design

Design with AI

AI-assisted benchmarking · functional prototyping with Claude and Codex

Tools

Figma · Miro · Adobe Photoshop · Illustrator · After Effects · Premiere Pro · SharePoint

Methodologies

Design Thinking · Atomic Design

EDUCATION

Multimedia Engineering
Universidad Militar Nueva Granada · 2018 – 2023

COURSES

UX Design Bootcamp (Mercado Libre) · **Web Accessibility** (Crehana) · Design Systems in Figma · Atomic Design · UI Design Fundamentals (Crehana) · Design Thinking with Minds Garage (Platzi) · Advanced Illustrator (Platzi)

LANGUAGES

Spanish — Native · English — B2
